### **DETAILED ACTION**

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission, filed on 12/29/03, has been entered.

### **NEW MATTER**

Claims 4-20, 23-28, and 33-36 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 4 still is deemed to contain the NEW MATTER regarding characterizing the spacer region as being "incapable" of forming a duplex. Consideration of the pages 15, 16, 27, 28, and Figure 2 disclosure has verified primer characterization but nowhere is there an incapability of the spacer region disclosed. Claims which are dependent directly or indirectly from claim 4 are also rejected as containing NEW MATTER due to their dependence.

No claim is allowed.
